

CyberAwareness

Securing the Digital World

Your Partner in Cybersecurity Education

CyberAwareness is dedicated to empowering individuals and organizations with the knowledge and tools they need to stay safe in an increasingly digital world. From beginner-friendly awareness training to advanced practitioner certifications, we have a program for everyone.

Top Threats We Help You Defend Against

Phishing Attacks: Deceptive emails and messages designed to steal your credentials and personal data.

Ransomware: Malware that encrypts your files and demands payment for the decryption key.

Social Engineering: Psychological manipulation tactics that trick people into revealing sensitive information.

Data Breaches: Unauthorized access to confidential data, often resulting in identity theft or financial loss.

Malware & Spyware: Malicious software that damages systems or secretly monitors user activity.

Training Course Catalog

Choose from our library of self-paced and instructor-led courses designed for every skill level:

Course	Level	Duration	Cost
Intro to Cybersecurity	Beginner	4 hours	Free
Phishing Awareness	Beginner	2 hours	Free
Password & MFA	Beginner	1.5 hours	Free
Network Security Fundamentals	Intermediate	8 hours	\$49
Incident Response & Recovery	Intermediate	6 hours	\$39
Ethical Hacking Basics	Advanced	20 hours	\$199
Security Compliance	Advanced	12 hours	\$149

Essential Security Tips

- Use a unique, complex password for every account (12+ characters)
- Enable multi-factor authentication (MFA) on all critical accounts
- Keep your operating system and software updated at all times
- Back up important files regularly to a secure, offline location

- Use a reputable VPN when connecting to public Wi-Fi networks
- Be skeptical of unsolicited emails — verify before you click
